

Health and Safety Commitment

Cascade Scotland Ltd is committed to maintaining high standards of health and safety in all aspects of our operations.

We operate a comprehensive Health & Safety Policy that reflects the nature of our business as a mobile service provider and aligns with relevant UK health and safety legislation, industry guidance, and recognised best practice. Our policy sets out clear responsibilities, procedures, and controls designed to protect our employees, contractors, clients, and members of the public who may be affected by our work.

Health and safety considerations are embedded into our day-to-day operations, including:

- Risk assessment and safe systems of work
- Staff training and competency
- Use of appropriate equipment and personal protective equipment (PPE)
- The right to refuse work where conditions are unsafe

Our full Health & Safety Policy is maintained as a controlled internal document and is available **on request** to clients, contractors, and other relevant parties where appropriate.
